

A Clip loss against the one-number budget

B Moving toward the anchor buys retreat back

C Held-out groups, decision margin 0.05

Constrained-cable connector recovery, block cable_repair_boundary_v3_r01. 1440 executed requests over 60 registered contexts, of which 1440 carried an issued repair. Outcomes: clip released 322, seated, clip kept 739, load abort 379. Held-out test groups L1_I4, L2_I6, L3_I2, L4_I6, L5_I4: 480 requests, 142 clip losses. The no-filter bar allows every action, so it sits at full coverage by construction. Pre-registered verdict: inconclusive_neither_branch_triggered. Simulation only; no hardware, released retention or latching claim.
